

Marquee Capacity Guide

One of the most crucial issues when choosing a marquee to hire is to get the right size. Too large and it can appear that not enough people have attended, too small and it is overcrowded and uncomfortable. We advise on between 4msq (12sq ft) and 5msq (15sq ft) per person for weddings and other events where guests will enjoy a meal seated at round tables, and 2msq (6sq ft) when guests are standing for a buffet style function. To assist you in gauging the right size we have provided the chart below to give you an indication of appropriate sizes. Our marquees are all sized in metres, however as a rough guide: 6m is equal to 20', 9m is equal to 30' and 12m is equal to 40'.

All these sizes are approximate. If you have any questions then please do not hesitate to contact us for some free advice.

Marquee Size 2.3m or 3m leg	6mx12m	9mx9m	9mx12m	9mx15m	9mx18m	9mx21m
Seated At Round Tables	60	70	90	110	140	160
As above with separate Dance Floor	50	60	80	100	130	140
Stand Up Buffet	120	140	180	220	280	320

Marquee Size 2.3m or 3m leg	9mx24m	9mx27m	9 x30	12 x12	12 x 15	12 x 18
Seated At Round Tables	180	200	250	120	150	200
As above with separate Dance Floor	160	180	220	110	140	170
Stand Up Buffet	360	400	460	240	300	360

Marquee Size 2.3m or 3m leg	12 x 21	12 x 24	12 x 27	12 x 30	12 x 33	12 x 36
Seated At Round Tables	240	280	320	360	400	440
As above with separate Dance Floor	210	240	270	300	330	360
Stand Up Buffet	420	500	570	640	710	780
